

# FDG Community Creator - Sewer Essentials

## ACKNOWLEDGEMENTS & INSTRUCTIONS

My name is William Walker. I have made [a few sets](#) for the Dragonbite Terrain system since. Thank you for buying this set and supporting my work. Please click the link above to check out my others sets, I've been busy this past year.

This set, **Sewer Essentials**, is just a few tiles I think really fill out the **FDG Sewers**. Some might scoff at the thought of torches in a sewer. I just assume they are lit with purple faerie fire or some other magic. No matter what, you'll enjoy these additions to the Dragonbite terrain line. This was the second set (the other being [Elevated Sewers](#)) that I crafted specifically to turn into another set, **X Marks the Spot**.

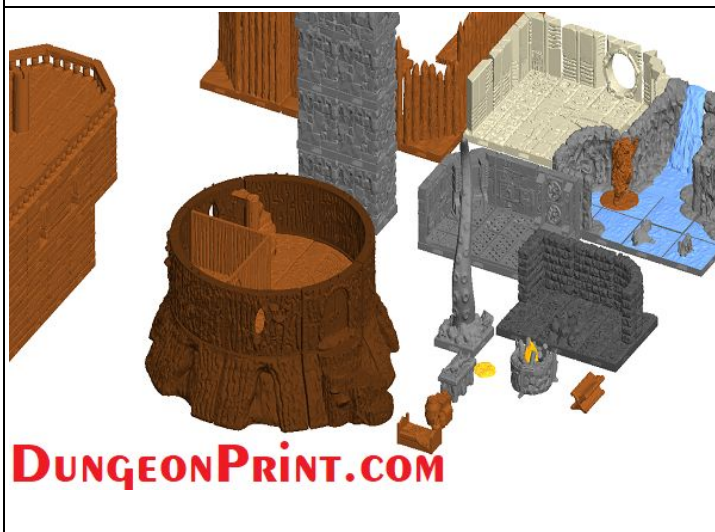

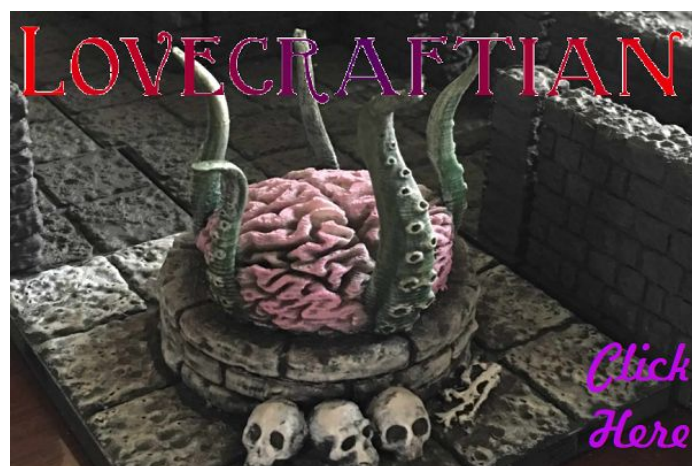

Thank you to Tom Tullis and the FDG staff for these textures and the permission to remix them for your delight. Thank you to the patrons of the Dungeonprint.com design studio who support so much of the best stuff this community gets. Thank you to Aaron Mulder and again to Colin Christenson, two of the best people anyone could ever hope to be associated with. Thank you to everyone who supports me and the other community designers with praise, constructive ideas, and financial support (like you!). Thank you to my wife and family for all of their support in my efforts.

For this set you'll want to make note of the following special instructions:

15% infill for Clip On Walls

10% Infill for all other models.

Brim suggested for Clip On walls if you have trouble printing them.
