

Black Scrolls

Killer Mushrooms

Miniature Set
by Antal Kéninger and Sándor Balogh

Foreword:

Hi, my name is Antal Kéniger, a graphic artist from Central Europe. I'm the guy behind Black Scrolls Games and I've been in the tabletop game business for seven years, working with other publishers and playing with friends on the weekend (when we all have time for it).
First of all, I would like to thank you for downloading/purchasing our products! I hope that this product will lead you through an interesting set of adventures and lend a little extra excitement to your game, whether gaming online (with my other products) or sitting around a table with your friends.

Have a great game!

Antal Kéniger

You can resize the files with +/- 20 percent if you want a smaller or larger sized minis in your dungeon. They will still work at that size and retain their details.

Support is not needed for the files, you can print them with the settings you use on your printer and you can use them right off the printing bed.

The Mushrooms in the pictures were printed at 100-micron layer height, 20 percent infill and 200C with PLA. These numbers may vary based on your printer and the material you use.

If you have any questions, please feel free to contact us here, on Facebook or any other platform where you can find us.

These files are for personal use only, making any changes to the files, selling them or the printed result is possible only with the written permission of the publisher.

Use them with the Dark Crypts - Map-Tile Set!

Join our "Masters of the Black Scrolls" Facebook group where you can submit your suggestion to the next map/model, read exclusive news and share your pictures and experience with us and with other gamers. Click here!

The first Cut versions will print without additional supports, you have to assemble and glue the parts together.

You can see the assembled versions in the pictures because I try to avoid supports if I can :)

v1 Angry Mushroom

v2 Double Head

v3 Tribal Shroom

v4 Shroomder
