Miniature Set

by Antal Kéninger and Sándor Balogh

Foreword:

Hi, my name is Antal Kéninger, a graphic artist from Central Europe. I'm the founder of Black Scrolls Games and I've been in the tabletop game business for seven years, working with other publishers and playing with friends on the weekend (when we all have time for it).

First of all, I would like to thank you for downloading/purchasing our products! I hope that this product will lead you through an interesting set of adventures and lend a little extra excitement to your game, whether gaming online (with my other products) or sitting around a table with your friends.

Have a great game!

A handwritten signature in blue ink that reads "Antal Kéninger".

You can resize the files if you want smaller or larger sized fences, the models are scaled for 28mm games. Support is not needed for the files, you can print them with the settings you use on your printer and you can use them right off the printing bed.

The Fences in the pictures were printed at 100-micron layer height, 10 percent infill and 200C with PLA. These numbers may vary based on your printer and the material you use.

If you have any questions, please feel free to contact us on Facebook, on our webpage or any other platform where you can find us.

These files are for personal use only, making any changes to the files, selling them or the printed result is possible only with the written permission of the publisher.

We say big thanks for the **patrons** who have supported this project, they are:
