DS30012 — April 2013

Glue the FRONT to this TAB

Glue the BASE to this TAB

Score folds with
hobby knife

Fold on **RED**
lines

Attach Ramps
Here

Attach
Ramps Here

Print two copies of this page to form the
two uprights.

Score and
fold on
the **RED**
gluing the
sides
together

Score and fold on the **RED** line. Score on the tabs on either side of the posts.

NOTE: Make sure when you glue these together, that you **DO NOT** glue the tabs together. These will be glued to the insides of the uprights attached to the sides.

Print this page TWICE to
make the two ramps.

Score and fold on all the edges. Glue the tab to the bottom of the ramp FIRST, and then glue the flaps on the sides. Glue the ramps to the base. You can run a thin bead of glue along the edges and seams to seal the model and strengthen it.

Game Masters need quality maps for their miniatures. DramaScape is committed to bringing Game Masters the maps they need.

DramaScape map products are designed to be compatible with both square and hex-based games and VTT products.

The 3d gallows are a freebie created by Grey Matter Games in partnership with DramaScape. This product includes a five page 3d gallows for use as an expansion with our Courtyards Ruins module. Each individual page has instructions on how many pages to print and how to cut, fold, and glue the paper together to build the individual building blocks that when glued together will form the 3d gallows.

These 3d gallows can be laid out on top of our Courtyard Ruins 2d gallows, making that area stand out as the centerpiece of the map and the scene.

These 3d gallows are also useful as a stand-alone product. They could be used in nearly any medieval fantasy or western setting as the main stage of an execution.

Whether the group needs to stop the execution of an innocent person or guard the execution site so that a criminal finally gets his just reward, the 3d gallows make a standout addition to an execution scene.
