

Thankyou for choosing Nova's Thunderhawk Gunship templates.

IMPERIAL THUNDERHAWK GUNSHIP

Weapons that you need to provide for yourself:

-6x twin linked heavy bolters (12 heavy bolters)

 1 set both sides, below front winglets

 1 set both sides, on end of wings

 1 set both sides, rear below hatches

-1x large battle cannon barrel (2cm to 1 inch in diameter)

 large center gun mount

-2x wing mounted heavy bolter control system (either pilot or computer thing)

 in circle on both wings

NOTES – Tricky bits

Winglets and tail fin.

There are two sets of each detail segment one for both sides of the main section.

Engines

The piece of paper to wrap around the engines may not be long enough, consider printing off a second set to make the full distance.

also...

Some pieces may not match perfectly, I'm afraid you will have to make do.
