

# Onemonk forum HOARD 16

To assemble, cut out each row of figures. Score the **RED** line, fold, and glue the figures back to back. Cut out the figures with a pair of scissors leaving about 1/8 inch around the figure. Optionally, you can cut the figures to the black outline with a hobby knife. When cutting the figure out this way, cut from the front view of the figure, the rear view has a wider outline to cover any mis-alignments. These figures can be based using the supplied fold-up bases, or any slotted base of adequate size.

Score and fold along red line. Glue front and back together. Cut parts out and remove red slot lines. Edge with marker or technique of your choosing. Fold legs forward and arms down. Slot and glue parts according to the diagram above. Base on a base of your choosing from Jim's great selection. I choose a 50mm base. His bases can be found at [www.onemonk.com](http://www.onemonk.com).
