

Instructions for the MMiP 25, Dark Secrets CRYPT
Coloring and Texturing by Eric Battle, paperworlds I.D. codexier
Model by James Hartman, paperworlds I.D ONE-MONK

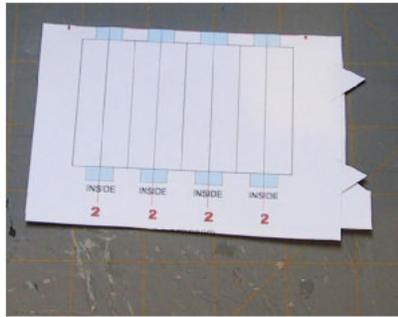

The instructions are divided into two sections, parts prep, and model assembly.

PARTS PREP

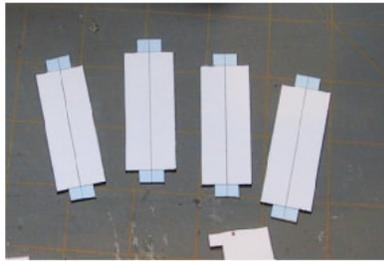

COLUMNS, score lines 1&2

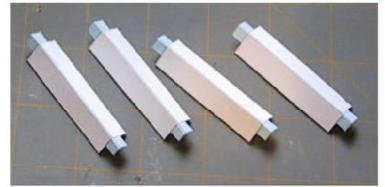

Fold and glue at line 1

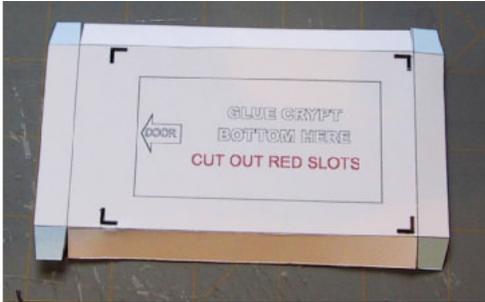

Cut out individual columns

Fold columns, outside, out.

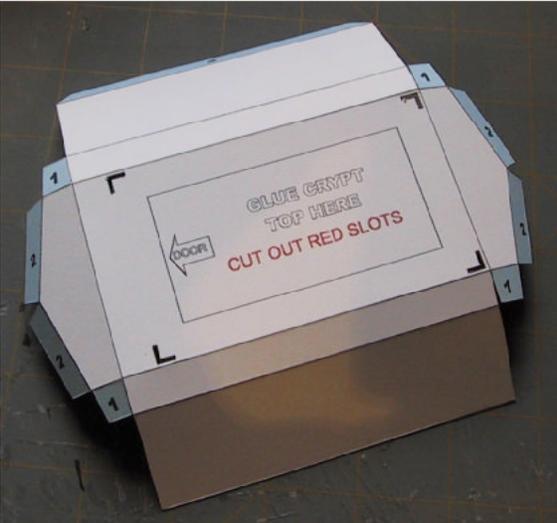

CRYPT bottom, cut slots, score folds

Fold and glue tabs, that's it.

CRYPT top, cut out slots, score folds.

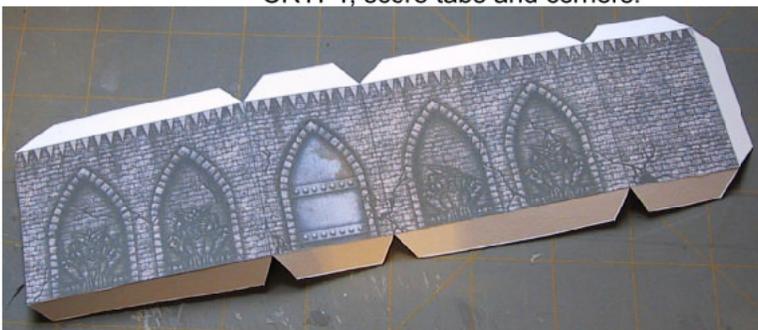

Fold and glue #1 tabs.

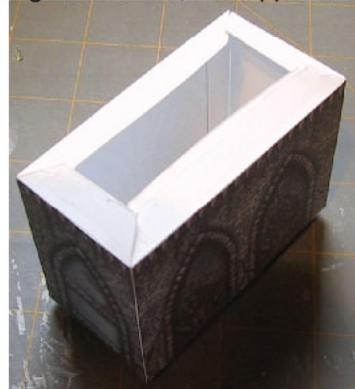

Fold and glue #2 tabs, done.

CRYPT, score tabs and corners.

Fold and glue side tab, fold upper and lowers in.

MODEL ASSEMBLY

Glue CRYPT to top, make sure to keep the door facing the right way forward, and up. Then glue in the columns, making sure to keep them up right.

Glue bottom tabs of CRYPT and place the CRYPT bottom onto the column tabs, keeping the CRYPT lined up with the center registration rectangle. Once in place, glue the bottom of the column tabs. And you are DONE!
