

Whitewash City: The Affordable Wild West Building Terrain!

Whitewash City is a series of historically accurate PDF building models taken from the "Real" Wild West that you print from your own computer/printer. What makes Whitewash City standout in today's market is that you get THREE choices of great printouts to fit your budget: **Full Color**,

Grayscale or **Black Line**, and every PDF file comes with **historically accurate, fully keyed floor plans** of ALL the living floors. With Whitewash City, even the outhouses come with floor plans, and the printouts are designed to fit **North American AND European** paper sizes.

Whitewash City is a **huge time and money saver** for the RPG and Table Top Gamer. No longer will you be forced to spend hundreds of dollars and toil away the hours making and painting building models and drawing up floor plans. Your terrain will now truly be 3D and at minimal cost and effort!

For best results, print either onto heavy card stock (use 80 or 110lb paper) or spray glue good color laser copies on onto heavy card stock. Use white glue for assemble. For more assembly suggestions, go to:
