

Instructions:

- 1 - Print this page on paper sheet (224gr/m² is very good, 160-180gr/m² is a minimum).
- 2 - Cut the crates by following the solid black lines.
- 3 - Pre-score the model.
- 4 - Start to glue the A tab, then, glue all the B tabs, and finally glue all C to close the crate. That's it...Repeat steps 1/4 for each crate.
