CUT OUT blank
parts after folding
and gluing

FOLD HERE

- Print with color printer
- Cut out the main part
- Fold along center line
- Glue the sides together
  with PVA and let it dry
- Cut out the white
  triangular form to make
  leaves
- Roll over a pen or similar
  tubular form (pay
  attention to the position of
  leaves when rolling)
- Bend the leaves
- You've got a palm tree !
