This document contains the deckplans for the ship broken into pages. They can be printed out, trimmed, and placed end to end to map out the habitable locations of the vessel. This file was constructed using layers to allow for some customization of display. The layers are:

- Optional cargo crates.
- Grid: 1 inch grid, with each square representing 5 feet.
- Black & White version of the primary map elements.
- Ship: an exterior view of the ship under the map  
(barely visible as the map nearly fills the hull)
- Background image with the primary map elements.

This image shows how the map pages are laid out. There are a total of 13 pages, with considerable overlap.

Two pages are required to map out the upper deck. Nine pages can display the habitable areas of the main deck. Lastly, two optional pages are included to complete the outline of the hull at the fore and aft ends of the ship.
