

INSTRUCTIONS

First and foremost, I wish to thank you for purchasing this set. Without your support, Fat Dragon Games would not be in business. Our web site www.fatdragongames.com features built up photos of our model sets, special free downloads and an excellent user forum where you can post any questions you may have regarding our products. I personally monitor the forum daily and welcome any questions, comments or suggestions for future sets you may have. I sincerely hope this model set brings you and your gaming group many hours of enjoyment.

Fat Dragon Games

Now, on to the modeling...

We have made every attempt to design the models you have purchased to be as easy as possible to assemble. Yes, we realize there may be more efficient ways of designing several of these pieces, but ease of assembly for the novice card modeler was our primary concern. Before you can construct your model, you will need some basic supplies:

Glue: While white school glue (Elmers) will work on these models, this type of glue contains too much water to make really nice looking models (it warps the paper). We recommend using a white craft glue (also known as 'tacky glue') which is essentially white school glue but with less water (available at Wal Mart, etc.). If this is not available you can also use a good quality glue stick or even better a liquid paper glue pen. We use UHU OFFICE PENS for our models-the applicator puts a small amount exactly where you want it and it has a non clog tip. You can get these from www.saunders-usa.com

Card stock: You will need a supply of white letter size card stock. This is available at any office supply or discount store in the school/office supply section.

Tooth picks: These come in handy to apply glue to small areas.

Wet paper towels or hand wipes: Very useful to clean your fingers off whenever you get glue on them. This will keep you from getting excess glue on your models.

Colored markers: A black, gray and brown marker is useful to touch up white edges on your finished model.

Acrylic Paints: Common acrylic paints can also be used to touch up edges on your finished model.

DISCLAIMER: Fat Dragon Games urges our customers to exercise extreme caution when cutting. Hobby knives (should you use them) are extremely sharp and must be used with the utmost care and caution and should never be used by children. Fat Dragon Games is not liable for misuse or accidents.

Before cutting each piece from the page, we recommend you first score all of your fold lines (dashed lines) by lightly dragging the knife across them. Do not apply pressure and just let the weight of the knife break the surface of the paper without cutting completely through it. Any fold lines that require rear scoring are designated by small blue arrows at the score points. Simple cut a small 'tic' mark at each edge of the dotted line so you can see it from the back and then score the line.
