MINIATURES SCALE MAPS FROM A FULL SCALE GUY

Map 1

Map 2

Edventure Maps: Danger in the Mists contains the two maps seen above at miniatures scale. The maps were originally used in one of my home campaigns to represent a mist filled gorge on the Abyssal plane. There is a second version of Map 1 that represents a level of webbing below the mists. A single strand of the web rizes out of the mist on Map 2 and in my game was the only way to cross between the maps. The PCs in my game faced half-demon spiders from below and archers from behind as they tried to cross the chasm. I hope your players do better than mide did. Each map is provided as both an 18x24 poster and a set of nine 6x8 tiles that can be assembled into the larger map.

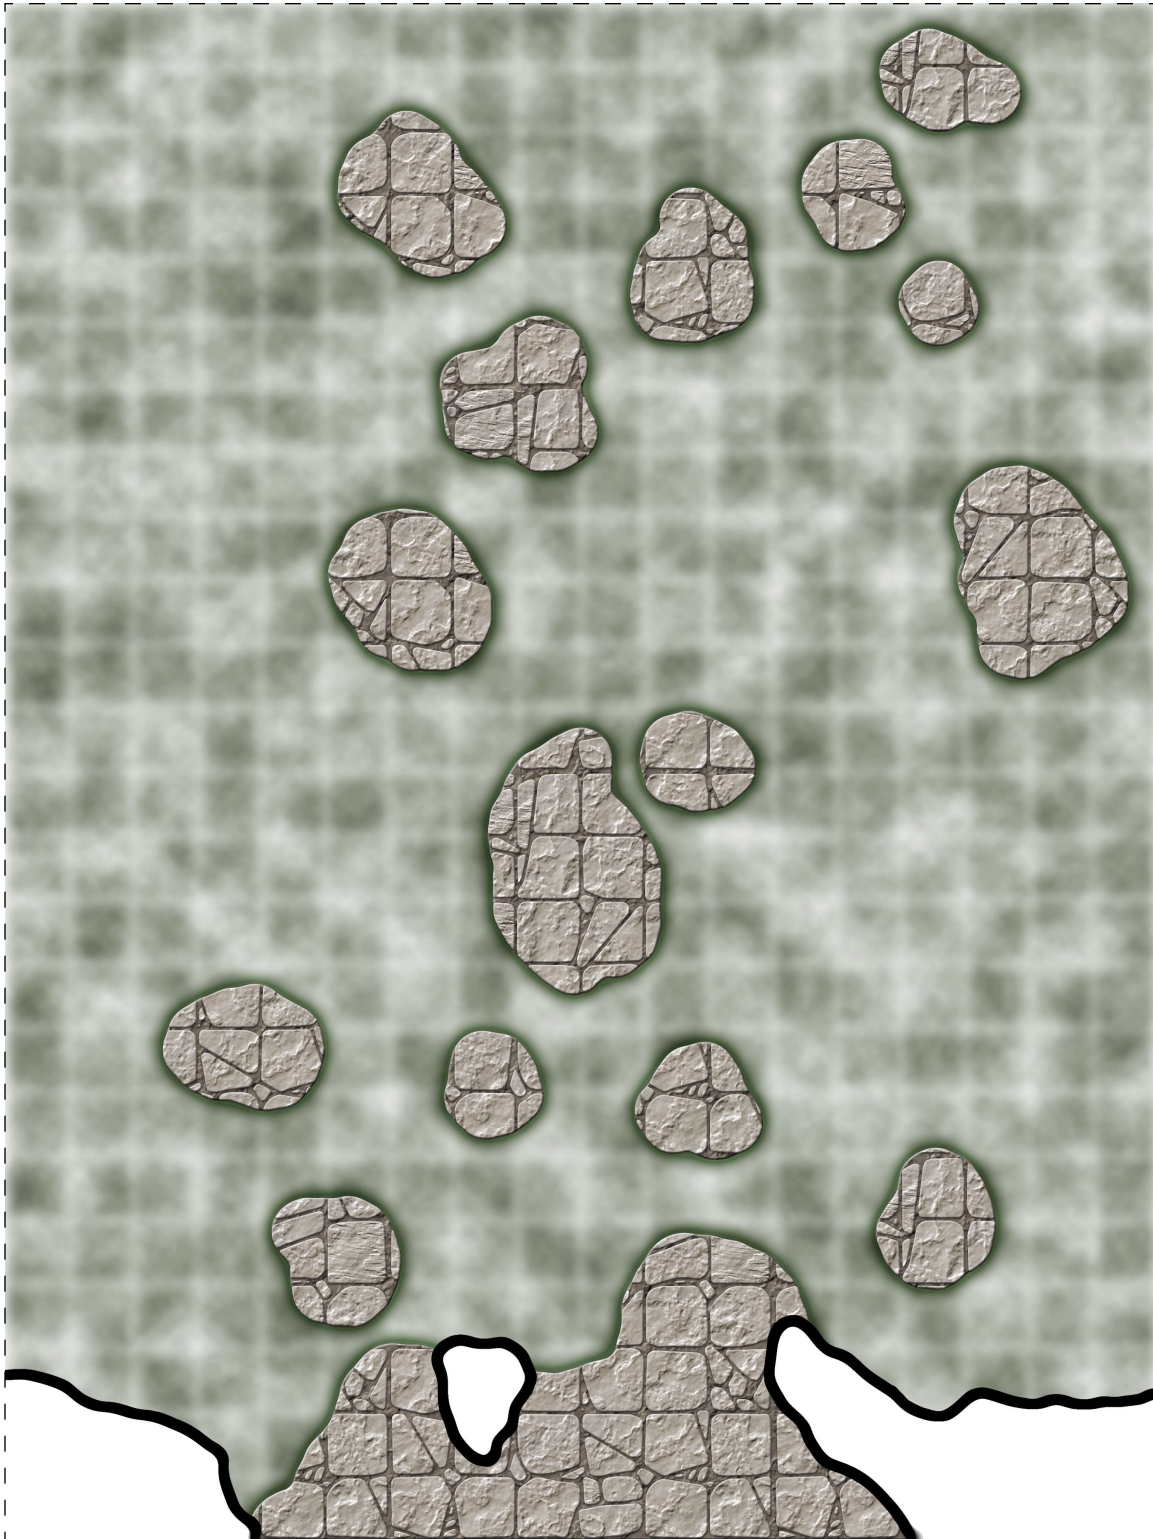

Have fun - Ed B.

When using the tiles, assemble the maps using the guide above. Barring any typos on my part even an ogre could figure it out :)
