20 GAUGE

COLT "THUNDER" 160eb

SHT - +1 - J - P - 3D6 (20ga.) - 5 - 1 - ST

A compact 20 gauge revolver, almost small enough to fit in your pocket.

BLACK BEAUTY 600eb

(From Nomad Market)

SHT - -1 - N - U - 3d6 (20 ga.) - 3 - 1 - VR

You could probably get more for this weapon from a collector, but its too pretty to trash, and too silly to be usefull. A break-open 3 barrel shotgun, with full length barrel and a pistol grip. Not sure who built this weapon or why, or how it came into nomads hands, but its pretty much useless for any purpose you could think of.

BROWNING SAINT PATRICK 200eb

SHT - 0 - J - P - 3d6 (20 ga.) - 3 - 1 - ST

Designed specifically for killing snakes, the Saint Patrick is popular with hikers, tour guides, campers and farmers .

DAI LUNG SP-2040 280eb

SHT - 0 - N - P - 3d6 (20 ga.) - 12 - 1 - ST

This 12 shot semi-auto shotgun from Dai Lung is actually apretty decent weapon. A bt underpowered for police work and a bit flashy for hunting, but it isn't the garbage that Dai Lung usually puts out.

FEDERATED ARMS "CHEESEMAKER" 325eb

P - -2 - L - P - 3D6 (.20 gauge) - 5 - 1 - ST

A nice little pistol sized .20ga shotgun, built to compete with Militech's Crusher. Actually the sales of this weapon have surpassed those of the Crusher, due to this weapons lower price tag.

REMINGTON PDST 360eb

SHT - +1 - J/N - P - 3D6 (20ga.) - 5/25 - 1 - VR

This semi-auto pistol shotgun is gaining in popularity, largely in part due to the fact that in addition to the standard 5 round magazine, it also comes with a 25 round drum magazine for those "special occasions"!

SLAKEDOCTOR 250eb

(From Nomad Market)

SHT 0 J P 3D6 (20 Ga) 6 1 ST

A small .20 gauge shotgun pistol makes an excellent sidearm for up close encounters, especially for those who have problems with accuracy. However the effective range is only 15 meters, so be aware of your surroundings when using it.

TSUNAMI ARMS MBS-5 360eb

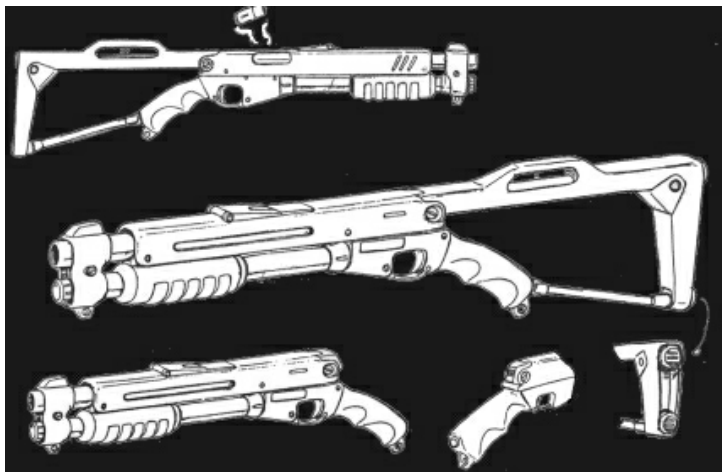

SHT - +1 - L - P - 3D6 (20ga.) - 15 - 1 - ST

The MBS-5 is a pump action pistol sized shotgun firing .20 gauge shells. It is perhaps a bit over done, but it definitely makes for an intimidating sight when pointed at you.

12 GAUGE

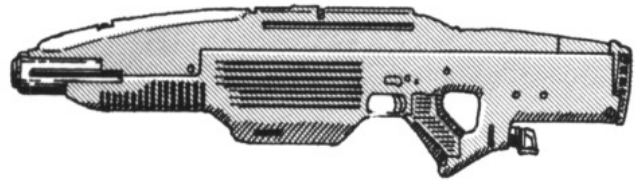

ARASAKA MMR-XSH SIDEKICK A&B 200EB
 SHT - -2 - L - P - 4D6 (12ga.) - 2 - 1 - ST
 The MMR-6 modular assault rifle from Arasaka has many accessories and add-ons... one of those accessories is a barrel extension with an built in underbarrel shotgun. The shotgun remains fully functional though not much bigger than a very large handgun, when removed from the main weapon, the idea was that if the main weapon was damaged, it could be ditched and the owner would still have a viable weapon. It also allows the owner to arm a friend if they have lost their weapon. The weapon only holds 2 shells, plus one in the pipe, but it has become fairly popular... popular enough that Arasaka has even begun selling a B version, as a standalone weapon.

ARASAKA PRW SHOTGUN 400eb
 SHT - +1 - N - P - 4D6 (12ga.) - 8 - 1 - VR
 This pump action 12ga. shotgun holds 8 rounds and accepts a variety of shells. It is usually stowed in the vehicle, either along the sides of the front seats, or in the trunk. It features a removable stock, and whippet style handle.

ARASAKA PSH-4 515eb
 SHT - -2 - J - P - 4D6 (12ga.) - 3 - 1 - ST
 A handgun sized 12 gauge, in competition with Poseidon's Gong series. A much more compact weapon, though not as accurate.

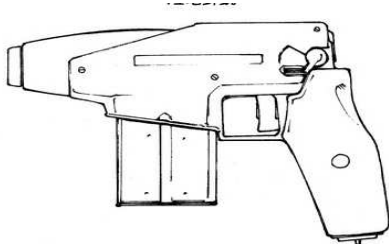

ARASAKA XS-40 850eb
 SHT - +2 - N - R - 4D6 (12ga.) - 20 - 1/6 - VR
 Capable of either single shot or fully automatic fire, this shotgun is a true weapon to beware. Arasaka hasn't started officially selling these yet, but Autumn Blade has acquired about 50 of them. Its biggest problem is that you have to hand load each shell individually, but supposedly with the release of the finished product it will be magazine fed. Grab 'em now while you can, these might end up as collectors items very quickly.

BARETTA RS-212 950EB
 SHT - +2 - N - P - 4D6 (12ga.) - 10 - 1 - VR
 This Italian riot shotgun features a long barrel and a folding stock.

BUDGET ARMS 12-20 335eb
 SHT - -1 - N - C - 4d6 (12ga.) - 15 - 1 - ST
 This may be a little too much. It's a pump action weapon, with the ammo tube extending the entire length of the firearm. Its stock is nearly worthless, though supposedly the weapon is meant to be fired from the hip. So what you end up with is a monster sized, very heavy weapon that you can't really aim. Thanks Budget Arms, for giving the gangers even more useless crap. At least it doesn't blow up in your face though.

BUDGET ARMS BTS-44 125eb

SHT - -2 - J - C - 4D6 (12ga.) - 4 - 1 - UR

Budget Arms is trying to compete with Sebuco, but failing miserably. For one thing the weapon is ugly as shit, for another the action is known to break easily.

DAI-LUNG "URBCOM" 215eb

SHT - 0 - N - E - 4d6 (12ga.) - 8 - 1 - ST

Well, Dai-Lung finally got something right. Their new pump action shotgun is actually fairly reliable and combat competent.

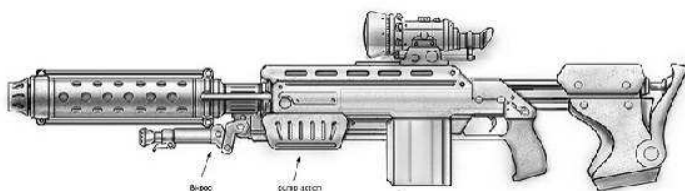

DRAGUNDY 500/700eb

(From Nomad Market)

P -1 L C 4D6/3d6 (.12ga or .20ga) 5 1 ST

Available either full sized, or as a very large handgun (illegal), this weapons comes chambered in either .12 gauge or .30 gauge. Each weapon is lovingly crafted by Master Khan of the Night City Nomad Market.

FABRIQUE DE ARMES SGS-7 975eb

SHT - +1 - N - C - 4D6 (12 ga.) - 10/5 - 1 - ST

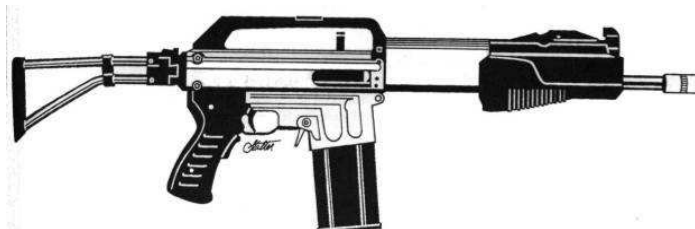

This weapon is fed from two sources, the 10 round magazine and the 5 round choke. In most cases the choke is used for specialty rounds, while the magazine is reserved for slugs or fin stabilized sabot rounds. This is yet another example of a shotgun being used as a sniper platform.

FEDERATED ARMS IRBS 580eb

SHT - 0 - N - E - 4D6 (12ga.) - 9 - 1 - VR

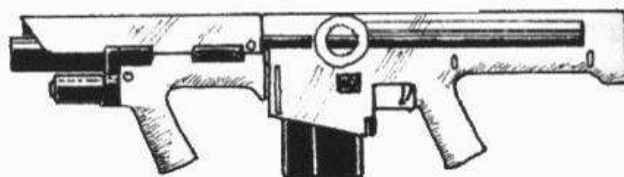

Pistol grip, long barrel and choke, and ugly, everything you could want in a shotgun. Popular with private security forces and as a home defense weapon.

FRANCHI SPAS-15 875eb

SHT - +2 - N - P - 4D6 (12ga.) - 10 - 1 VR

With the choice either standard pump or semiauto fire that is fast becoming standard to all Franchi shotguns, this is Scott Harada's full-sized shotgun of choice. Resembling an AR-15 and complete with folding stock, this shotgun is definitely an intimidator and serves very well in an urban environment.

HECKLER AND KOCH "AARDVARK" 650eb

SHT - +2 - N - P - 4D6 (12ga.) - 8 - 1 - VR

Slim, streamlined, and effective, the Aardvark is a very well designed shotgun from the innovators of Heckler and Koch.

DAIL LUNG MIB-15 780eb

SHT - -1 - N - C - 4D6 (12ga.) - 15 - 1 - ST

A very long, very unwieldy weapon from Dai Lung. Obviously the creators of this weapon were looking for style over substance, with the knuckle duster grip and extreme length, especially for a pistol grip pump action shotgun. However the weapon has become a favorite with streetgangs and organized criminals due to the fact that the weapon is just so intimidating.

pimpmygun.doctornoob.com

H&K ORC 1050eb

SHT - +1 - N - C - 4D6 (12 ga.) - 6 - 1 - VR

A shotgun similar in design to the H&K Goblin. This weapon is small enough to fit under a baggy trenchcoat.

H&K SAS-40 780eb

SHT - +1 - N - C - 4D6 (12ga.) - 8 - 1 - ST

The standard issue shotgun to many European militaries and police forces, the SAS-40 is a pump action 12 gauge with an 8 round tube magazine.

H&K SHOT-11 380eb

SHT - +1 - N - E - 4D6 (12ga.) - 6 - 1 - ST

A semi-auto hunting shotgun popular with nomads and sportsmen. In a pinch it is accurate enough to be used as a sniping weapon firing sabotted or FSAPDS rounds.

MILITECH ASG-16D 845eb

SHT - +2 - N - C - 4D6 (12 ga.) - 16 - 1 - VR

A nice bullpup shotgun design from Militech. Reminiscent of the old South African "Strykers", it loads from a rotary drum magazine. Made by Militech for riot duty, it is most useful when used with mixed loads.

MILITECH BLAST 45eb

SHT - -3 - J - P - 4D6 (12ga.) - 1 - 1 - ST

A sturdier, more reliable, and slightly easier to aim version of Streetechs Burst holdout shotgun. Though unlike the burst, which looks like a key ring flashlight, no one will mistake this for anything but a weapon. It holds one 12 gauge shotgun shell, and is a breach loading design.

pimpmygun.doctornoob.com

MILITECH ERW-14 430eb

SHT - +1 - N - C - 4D6 (12ga.) - 4 - 1 - ST

This no frills semi-auto shotgun was developed as a survival weapon, allowing downed pilots or boat crews to hunt for food and defend themselves. The design seemed better than Militech originally thought however, and the weapon has become quite popular in 3rd world countries.

MILITECH "GOAT" 520eb

SHT - -2 - N - P - 4d6 (12ga.) - 8 - 1 - ST

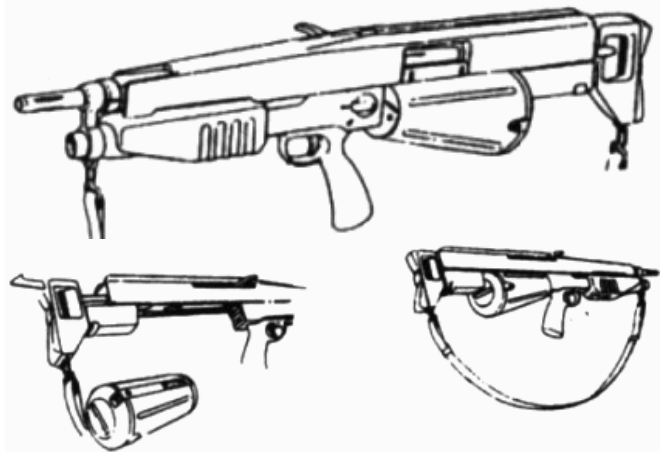

A heavy fisted combat shotgun with a pistol grip. Solid and reliable, and popular with police, military, and private security consumers everywhere.

MILITECH RAIDER CS-36 820eb
 SHT - -2 - N - P - 4d6 (12ga.) - 5/10/25 - 1 - ST
 Capable of accepting 5 or ten round magazines, as well as a 25 round drum, this Militech shotgun is a workhorse. Extremely popular in both military and police circles.

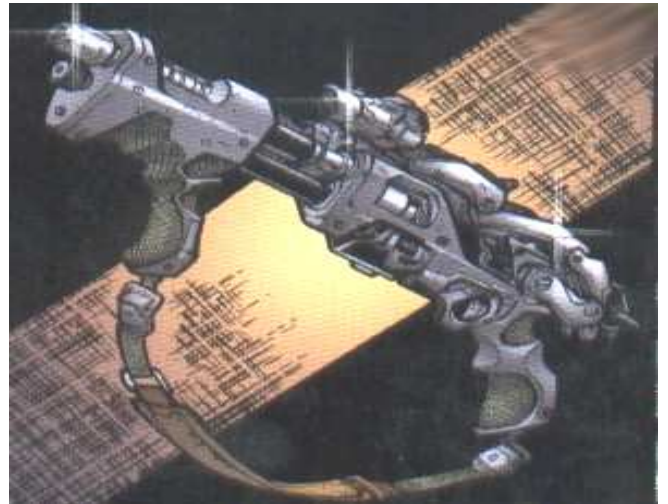

MILITECH S-442 1710eb
 SHT - +1 - N - P - 4D6 (12ga.) - 30 - 1/10 - ST
 This full auto shotgun is perfect for sweeping rooms and completely clearing out the opposition. While a bit heavy, the firepower of this beast more than makes up for any other shortcomings.

MILITECH "SASQUATCH" 1915eb
 SHT - 0 - N - P - 4D6 (12ga.) - 18 - 1/8 - VR
 An assault shotgun similar to the Arasaka AS-20. Bullpup design and fully automatic fire make this weapon a true battlefield monster.

MOSSBERG "NELLIE" 850eb
 SHT - +1 - L - C - 4D6 (12 ga.) - 6 - 1/3/6 - VR
 This is a very short, select fire shotgun made by Mossberg. It is ideal for tank crews and prison guards, although terrorists and street gangs have also taken a liking to it.. For combat use, a ten round magazine is available.

MOSSBERG "WILDSTORM" 720eb
 SHT - +1 - N - C - 4D6 (12ga.) - 8 - 1 - VR
 One of the finer shotguns ever manufactured, the Wildstorm is perfect for room to room fighting and other confined combat situations. It also features a folding stock and built in tactical light. While only available in pump, the weapon also accepts a 10 round magazine, and both feeds can be loaded simultaneously and can be selected at the flip of a switch, allowing you to better specialize the ammo load you are carrying.

NEWBLOOD SHT

(From Nomad Market)

RIF - 0 - L - E - 4d6 (.12 ga) - 6 - 1 - ST - 150eb

This is a retooled shotgun version of the Newblood rifle, a popular weapon manufactured by nomads.

NOMAD PUMP SHOTGUN 175eb

(From Nomad Market)

SHT - 0 - N - U - 4d6 (.12 ga) - 5 - 1 - VR

The nomad sense of style, it's unique, it's functional, it always makes a statement. The katana style wrapping on the handle and the custom pump make this a truly unique piece.

NORINCO "NEOSTEAD" 1075eb

SHT - +1 - N - C - 4D6 (12 ga.) - 8 - 1/3 - ST

This very slim semi-auto shotgun is a favorite among corporate security personnel. Its main draw point is its ability to fire 3 round bursts.

PANCOR JACKHAMMER MARK 3-A2 1495eb

SHT - +2 - N - P - 4D6 (12 ga.) - 10 - 1/10 - VR

A unique shotgun design that was years ahead of its time. Developed in the late 80's the Mark 3-A2 has a ten round ammo cassette which acts as both magazine and firing chamber. It accepts any standard 12ga. load and when fully or partially loaded the ammo cassette can be mated with a special detonator base (an extra 50 eb) and plunger to become a lethal and reusable anti-personnel mine. (AP mine damage is the damage of the ammunition used x the number of live rounds in the cassette.... use maximum damage if device is stepped on or otherwise point blank.)

POSEIDON GONG B 625eb

SHT - -1 - J - C - 4D6 (12ga.) - 7 - 1 - VR

The only difference between the standard Gong and this version is that this version is chambered in 12 gauge instead of 10. Otherwise this is still the finest shotgun pistol on the planet, and the smaller ammunition size makes for a slightly larger ammo capacity. Available with either wood or rubber trim.

POSIEDON GONG-C & D 695eb

SHT - -1 - L/J - P - 4D6/5D6 (12ga./10ga.) - 7/6 - 1 - VR

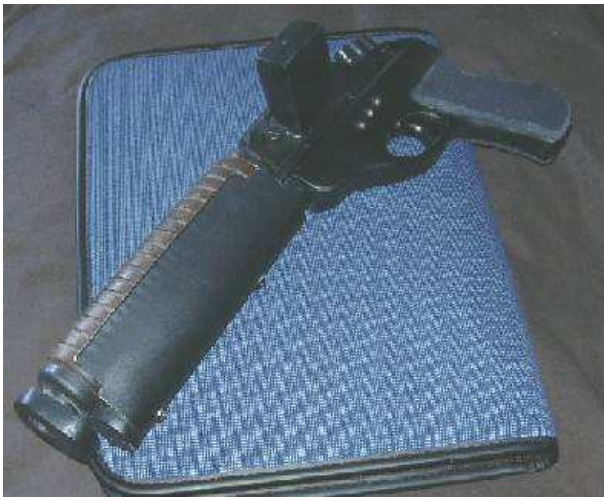

Poseidon is known for one weapon and one weapon alone, the Gong. These latest 2 version are the end result of every problem reported, no matter how minor, being scrutinized over until the weapon is as reliable as it can possible get. Including using titanium barrels to allow the weapon to fire thermite rounds without damaging the barrel as quickly (20 shots instead of 5 destroys the barrel). The Gong-C is chambered in 12 gauge, while the Gong-D in 10. The barrels of both versions can be removed for ultimate concealability, however this reduces the accuracy by another -1.

REMINGTON "BOUNCER" 215eb

SHT - -2 - J - P - 4D6 (10ga.) - 2 - 1 - ST

Built for personal security, this weapon is classified as a handgun, but is in actuality a sawn down over and under shotgun, with a whippet style grip. A favorite with home and business owners.

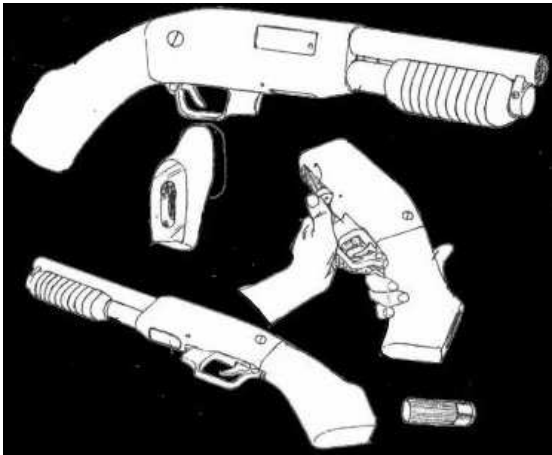

REMINGTON EX-12FR 435eb
 SHT - 0 - L - C - 4D6 (12ga.) - 6 - 1 - ST
 Magazine fed from a side inserted 6 round box, this semi automatic compact shotgun is the ideal tool for personal and home defense.

pimpmygun.doctornoob.com

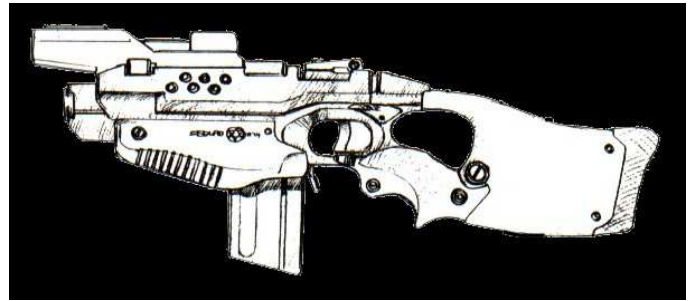

REMINGTON "SODOM" 1330eb
 SHT - +2 - N - C - 4D6 (12ga.) - 15 - 1/3 - ST
 This bullpup shotgun is perfect for assault and black ops work. Its high magazine capacity and 3-round burst capability are its biggest selling points.

SAWN OFF SHOTGUN 50eb
 SHT - 0 - J - C - 4d6 (12ga.) - 3 - 1 - VR
 Shotguns are always popular weapons, and sawing off the barrel for a greater spread at close range is nothing new. This weapon takes it to the extreme. Most shotguns are shaved to the choke, this shotgun has actually had the choke shortened, dropping its ammo capacity to 3, but also enabling faster reloads and more concealability, and to further the conceivability factor, the stock has also been removed.

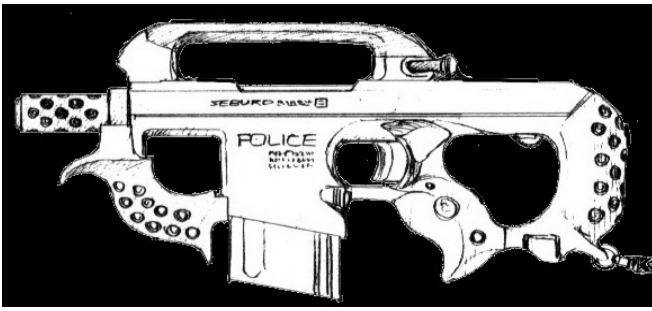

SAWN OFF SHOTGUNS 2 50eb
 SHT - 0 - J - E - 4d6 (12ga.) - 2 - 1/2 - VR
 And here it is, the classic double barrel sawed off shotgun. One of the most common and widely recognized weapons in the world. Cheap, reliable, and plentiful

SEBURO PAS-14 1395eb
 SHT - +1 - L/N - P - 4D6 (12ga.) - 10 - 1 - VR
 Seburo is making a play for the market, and while their weapons may be in some opinions superior to the Gong, the Seburo's higher price tag will ensure that the only people who can afford it are true professionals. The PAS-14 features a removable stock, which allows the weapon to be more easily concealed.

SEBURO PAS-16 980eb
 SHT - -2 - J - P - 4D6 (12ga.) - 4 - 1 - VR
 A truly compact shotgun, the second in Seburo's PAS line. Easily concealed and barely larger than a normal semi automatic handgun.

SEBURO PAS-18 945eb

SHT - +2 - N - P - 4D6 (12ga.) - 6 - 1 - VR

The same size as a large submachine gun, the PAS-18 is extremely popular with police and special forces units. The FN-90 inspired foregrip is a really nice touch and allows for a smaller profile of the weapon.

SEBURO RAYVEN 2-12 1695eb

SHT - -1 - L/N - R - 4D6 (12ga) - 6/10/25 - 1/5 - ST

Using the same frame and design as the popular Rayven compact assault rifle, Seburo releases a shotgun version, with just as wide an array of barrel extensions, accessories, and magazine sizes.

SHAMAN STICK 210eb

(From nomad Market)

SHT 0 N R 4D6(.12ga) 4 1 ST

This semi-auto shotgun is kind of a mess, they cut off the wooden buttstock, then at some point later they attached a wireframe stock. They also stuck an arrow on it, presumably so they could spike people like a bayonet, which would be fine except they also attached an axe blade. Not sure how you fire it without chopping off your own fingers.

SHOTGAT 300eb

(From nomad Market)

SHT 0 N R 4D6 (.12ga) 20 1/3/5 ST

Overkill in an easy to use hand held size. This may be the first short barreled full auto shotgun in the world, absolutely devastating at close range, but pretty useless beyond 25 meters. In close quarters though, this thing will just destroy your opponent.

SLAM 825eb

(From nomad Market)

SHT - 0 - J - VR - 4D6/varies (.12 ga./40mm grenade) - 20/1 - 3/1 1 - ST

Technomancers build these fully automatic shotguns and sell them here in the market. For added oomph they add a 40mm grenade launcher. A .10 gauge version is available, though ammo capacity drops to 12.

SLICK WILLIE 150eb

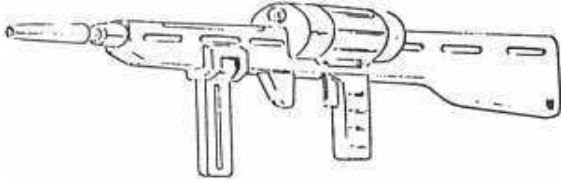

(From Nomad Market)

SHT - -2 - J - U - 4D6 (.12 GA) - 3 - 1 - VR

Someone took a perfectly good semi-auto hunting shotgun, and chopped it down till it only held two rounds in the tube and one in the chamber, then replaced the wood stock with a baton handle. The necessity for this eludes me, but it sure is interesting to look at.

SMITH AND WESSON SAS-911 720eb
 SHT - +2 - N - P - 4D6 (12ga.) - 9 - 1 - VR
 A favorite in police and security circles, this 9 shot pump/semi auto shotgun packs a wallop, and is stylish enough so that you don't have to be embarrassed by your guards carrying it.

STERNMEYER SH-8 1025eb
 SHT - -1 - N - C - 4D6 (12ga.) - 35 - 1/3 - ST
 The SH-8 is a helical drum fed 12ga. shotgun that features a hinged front handle allowing it to either extend downward or to the side.

TECHNOMANCER BLUNDERBUSS 500eb
 (From Nomad Market)
 SHT - -2 - L - R - 4D6 (12ga.) - 4 - 1 - VR
 A simple shotgun manufactured by the Technomancers, a favorite gun of theirs in fact. One of the special features is that it is able to use thermite rounds without fear of damaging the barrel due to a special cooling system that uses compressed CO2 fed from the same cylinders as used in bb guns. It also comes with a laser sight and flashlight.

TECHNOMANCER DOUBLE BARRELED BLUNDERBUSS 650eb
 (From Nomad Market)
 SHT -2 J R 4D6 (12.ga) 2 1 VR
 Technomancers have done it again, and everyone is left wondering... why? A sawn off double barrel shotgun, with barrel reinforcement and CO2 cooled barrels so it may fire thermite rounds without damaging the barrels.

TECHNOMANCER SHOTGUN 300eb
 (From Nomad Market)
 SHT - +1 - L - P - 4d6 (12ga.) - 10 - 1 - VR
 Why are Technomancers so weird? This semi-automatic shotgun looks almost clean enough to be a production model, but the design is just so weird that it could only work in the nomad community.

VERA 325eb
 (From Nomad Market)
 SHT - -1 - J - VR - 4D6 (.12 ga.) - 15 - 1 - ST
 Somewhere, a nomad saw a Gong and got inspired. This is apparently the result, nowhere near as compact, or as pretty as the Gong, but damned if isn't just plain mean. 15 shots of 12 gauge fury in a space barely larger than a standard smg. Comes with removable barrel extension and folding stock.

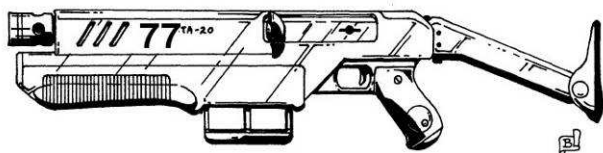

WINCHESTER "HITCH HIKER" 305eb
 SHT - -1 - N - E - 4D6 (12ga.) - 6 - 1 - ST
 A popular choice among nomads, this simple to operate and maintain 12 gauge pump is even sweeter due to the fact each of them come with a carry harness with adjustable straps so you can either carry it over your shoulder or even mount it to your bike.

ZIP BLAST 30eb
 (From Nomad Market)
 SHT - -3 - L - C - 4D6 (12ga.) - 1 - 1 - UR
 Antique flareguns modded to fire a 12 gauge round. It's not guaranteed to blow up in your hand, but its not guaranteed not to either. Surprisingly common.

10 GAUGE

ARASAKA 77TA-20 750eb

SHT - 0 - N - E - 5D6 (10ga.) - 8 - 1 - ST

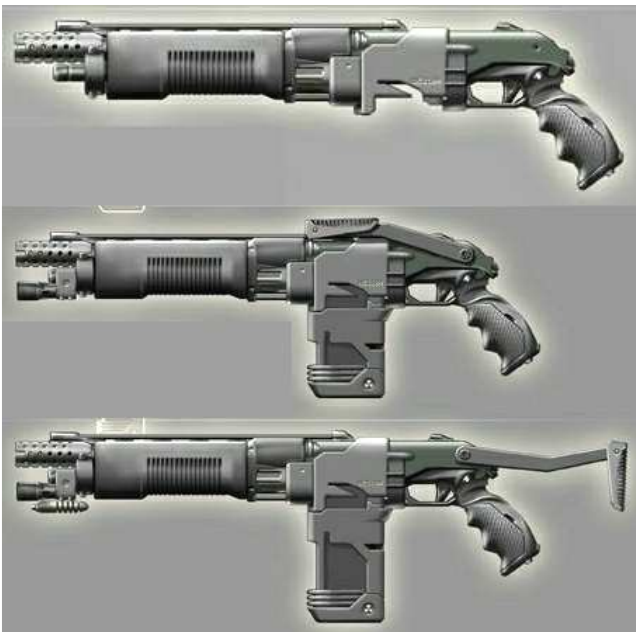

This semi-automatic magazine fed 10 gauge is just what the doctor ordered when it comes to clearing rooms.

FRANCHI "GENDARME" 435eb

SHT - 0 - N - E - 5D6 (10ga.) - 5 - 1 - VR

A clean, streamlined shotgun, designed for use with police officer's. There are virtually no "snag points" on this weapon, and with its 10ga. load you are more than able to deal with most threats quickly and finally.

ARASAKA KAI 1489eb

SHT - -1 - N - C - 5D6 (10 gauge) - 8/10/20 - 1/3 - VR

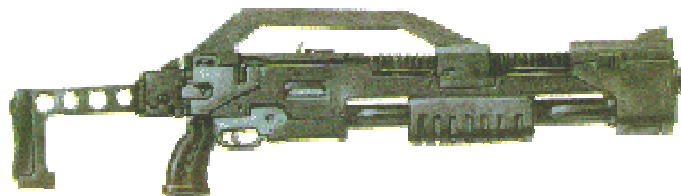

Arsaka's latest combat shotgun, chambered in 10 gauge, this semi-auto weapon is tube fed and also accepts a 10 or 20 round magazine (+20-40eb per magazine). Excellent for house to house combat.

FRANCHI SPAS-97 945eb

SHT - +3 - N - R - 4D10 AP (10ga. FSAPDS ammo) - 10 - 1 - VR

Taking its cues from the RSG "Sniper", Franchi developed their own version of a sniping shotgun. Firing the same round, this weapon operates either by pump or semiautomatic. When loaded with normal ammunition this weapon becomes a formidable combat shotgun. Franchi has bested the RSG with this design, and it will be interesting to see how things progress from here.

FRANCHI SPAS-102 715eb

SHT - +1 - N - C - 5d6 (10ga.) - 8 - 1 - ST

Able to fire in either pump or semi-auto, the SPAS-12 is fast becoming a favorite to professionals in all fields, from mercenaries to corporate security.

ARASAKA "MANHUNTER" 1875eb

SHT - +1 - N - P - 5D6 (10ga.) - 25 - 1/15 - VR

The Manhunter is truly an assault shotgun for the professional. Firing 10ga. rounds at a rate of 300 rounds per minute this weapon is a pig. A bit too heavy for some applications, the Manhunter is gaining extreme popularity as a support weapon. For even more firepower the weapon is able to accept belt fed ammunition.

MILITECH CSH-45 625eb

SHT - 0 - N - C - 5D6 (10ga.) - 6 - 1 - ST

Big, mean, intimidating. This 10 gauge shotgun switches between pump and semi auto with the flip of a button. The whippet grip and folding stock are nice touches as well.

MILITECH DAP-12 520eb

SHT - -2 - N - P - 5d6 (10ga.) - 10 - 1 - ST

Originally designed as a handgun for FBC's and ACPA, somehow the "DAP" has become popular as a room sweeping assault shotgun. Not as pretty or as reliable as a Gong, nor as comfortable, this is still a fearsome, and extremely heavy, personal weapon. (Do NOT attempt to fire this weapon without a BOD rating of at least 9, as the kick may shatter your wrist.)

MOSSBERG ATA-5 615eb

SHT - -2 - J - P - 5D6 (10ga.) - 4 - 1 - ST

A 12-gauge pump action shotgun, ideal for police and security work.

MOSSBURG ATA-10 745eb

SHT - 0 - N - P - 5D6 (10ga.) - 8 - 1 - ST

It fires 8 rounds of 10 gauge shells, what more could you want out of a shotgun?

MOSSBERG "CAMPER" 250eb

SHT - +1 - N - E - 5D6 (10ga.) - 4 - 1 - ST

A 10 gauge pump, extremely popular with nomads and also as a home defense weapon.

MOSSBURG RSG SNIPER 765eb

SHT - +3 - N - R - 4D10 AP (10ga. FSAPDS ammo) - 4/10 - 1 - VR

Here is a novel approach to sniper rifles, use a shotgun. Seriously, this weapon is a bolt action rifle designed to fire FSAPDS (Fin Stabilized Armor Piercing Discarding Sabot) in 10ga. The weapon is very accurate due to the stabilized round and the ammunition is considerably cheaper than the .50 BMG. Perfect for taking out vehicles and other lightly armored targets. The weapon is available with either a 4 or 10 round magazine and accepts all standard 10 ga. ammunition but is only an effective sniper rifle when loaded with either the recommended FSAPDS ammo or simple 10ga. slugs.

The Poseiden Gong 650 EB

P/SHT * -1/-3 * J * C * 5D6(10 GAUGE) * 6 * 1 * ST

The Poseiden Norinco Gong is a ten-gauge 6-shot shotgun. This pistol-sized shotgun seems to be Deunan Knute's weapon of choice. It accepts a variety of special ammo.

REMINGTON "DILLON" 835eb

SHT - 0 - N - R - 5D6 (10ga.) - 8 - 1 - VR

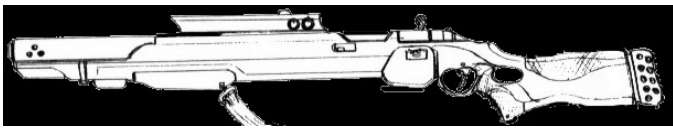

A large semi-auto assault shotgun, a bit unwieldy, but very powerful. Intimidation factor alone should stop anyone from opposing you, however if they do the damage created by this will surely make them regret it.

SEBURO MST-55 1390eb
 SHT - -2 - N - R - 5d6 (10ga.) - 10 - 1/3 - VR
 Designed strictly for room sweeping duties, the Seburo MST-55 has an incredibly short barrel creating a tremendous spread. The weapon only has an effective range of about 20 meters, but inside those 20 meters it is devastating. The weapon is also incredibly effective when loaded with solid slugs or sabot rounds, and in this capacity actually makes a fairly decent anti-cyborg weapon.

SEBURO PAS-15 1295eb
 SHT - +1 - L/N - P - 5D6 (10ga.) - 5 - 1 - VR
 Seburo's bigger brother to the PAS-14, functionally the same weapon, it is instead chambered in 10 gauge. The stock is removable from this weapon as well.

SEBURO PAS-R2 960eb
 SHT - +3 - N - R - 4D10 AP (10ga. FSAPDS ammo) - 8 - 1 - VR
 Seburo's version of the RSG, a very long, extremely accurate weapon. With Seburo's always beautiful styling and excellent quality. The weapon is semi-automatic and tube fed to keep the over all profile low.

SEBURO "SPARTA" 1175eb
 SHT - +2 - N - P - 5D6 (10ga.) - 10 - 1/3 VR
 The first shotgun to be released by Seburo. It is truly a fine weapon, capable of wither single fire, or three round burst. Firing 10ga. shells this thing is a beast.

SEBURO TBVS-10 2060eb
 SHT - +3 - N - R - 5D6/4D10 AP (10GA. / 10ga. FSAPDS ammo) - 7/5 - 1 - VR
 The finest dual purpose shotgun on the planet. In normal "compact" mode, the weapon acts as a standard 10 gauge pump action shotgun, however with the flip of a switch, the weapon expands into a sniper weapon firing 10 gauge fin stabilized armor piercing discarding sabot rounds from a separate bullpup ammo reserve. There are actually two barrels to the weapon, which move in concert with the mode of weapon selected.

SLUMDOG 300eb
 (From Nomad Market)
 SHT - -2 - N - R - 5d6 (10ga.) - 8 - 1 - ST
 This is a nomad manufactured, magazine fed, bolt action shotgun. It is meant to be loaded with slugs or sabotted rounds, though standard ammunition and even 25mm grenades work just as well.

8 GAUGE

THE WHALER 1200eb
 HVY 0 N R 8D6 (.4ga) 2 1 ST
 This double barrel 4 gauge shotgun is mean to serve as a mounted anti-vehicle/anti-personnel weapon. It is nothing short of devastating. No one with a bod of less than 12 can fire the gun without a hard mount or a powered harness. It comes with a box of 25 000 rounds, and a box of ten slugs (9d6+2). Ammo must be either hand made from a gunsmith (save your shells), or it can be purchased rarely from urban gunsmiths specializing in Police or Military arms.
