Other Equipment/Notes	First introduced in 1964 and the first so called "battle taxi" the M113 series of vehicles has endured the test of time. They have seen use in several dozen countries and have been copied and changed to suit the needs of a particular situation. Almost 100 variations have been introduced a small sampling is given here and on the following pages. Most of the ones found today will be of the M113A3 variety with the rear exterior fuel tanks, or of the IFV variety which was the final update taking place in the early 2000's.
