QUES2-1 STIR NOT THE WORLD'S DOOM

QUES21 Spellscar

You have been exposed to the Spellplague and are now a spellscarred creature! Effects that apply to spellscarred creatures apply to you. You have Spellscarred Susceptibility and Spellplague Sense from page 41 of the *Forgotten Realms Player's Guide*, but no other spellscarred abilities. The specific game effect from the adventure has worn off but you may choose to still have the same visible (roleplaying) change to your character. If you do not wish to keep the change then strike through this entire story award (there are no consequences for declining this "gift").

This story award does not qualify you to take the Student of the Plague feat unless you have put the appropriate Player Rewards card in your stack.

Describe your spellscar on the back of this certificate. Once you establish the description, you may not change it.

QUES22 Favor to an Oni

You occasionally feel the prick of the tiniest needle deep within your heart. You now owe a favor to the oni known as Cunning. Was that a good idea? Only time will tell...

QUES23 Champion of Ice / Brand of Fire & Ice

You have seen the fabled Key of Cirotralech and greatly impressed Queen Imreera of Gontal.

You gain the benefits of a *demonskin tattoo* (level 13 wondrous item from *Adventurer's Vault 2*) although it takes the form of a brand, and is not made of demonskin. This occupies one of your found item slots (you may decline the boon and strike through this paragraph if you so choose).

If you have **MINI22 Champion of the Brand**, the scar on your face is so cold it burns. The *demonskin tattoo* does not occupy one of your found item slots in this case.

Unlike a typical *demonskin tattoo*, this item only allows you to choose either cold or fire resistance when activated. However, it does NOT occupy your "magic tattoo" item slot (meaning you may still make use of another tattoo if you purchase or find one).
