Cloud Carrack Potion

Each carrack will be sixty feet long and will have two masts. It can fly from five feet to 150 feet above the ground at a movement rate of 24 (C). A carrack can carry a considerable amount of goods, animals, or people in the hold, and does not require a crew to operate. The ship takes orders from the individual who called it forth. A carrack's duration is 12 turns (two hours). At the end of that time, all cargo and passengers find themselves unharmed on the ground beneath where the ship last floated.
