

To her esteemed Lady Jhessail, Leader of the Blackfist, Elected Leader of Phlan, and General of the Reclamation of Phlan

We Who Harp be seeking ye assistance in removing the Red Wizards of Thay from Mulmaster. Be it known that they be operating in a secretive manner that we Harpers feel is not in the best interests of the People of Mulmaster, nor the Moonsea at large.

As ye undoubtably know, the Emerald Enclave be moving openly against Thay, in hopes of liberating her people from the Tyranny of the Red Wizards. We, Harpers have always opposed Thay for this same reason, and we wish to call upon Phlan and the Blackfist to lend aide with this effort, as it was the Five Factions who reclaimed Phlan and destroyed Vorgansharax, and later cured her peoples of the Chaos Plague affliction.

We realize that ye most likely cannae support us openly, lest ye fall victim to the combined forces of Mulmaster and Thay which may be arrayed against us. A force which bodes ill for the continued survival of Phlan, in the wake of its great calamities.

I, Malkyn Fenris, High Harper of those Who Harp beseech ye as citizen and resident Archmage of our fair city to aide us with shelter, and covert support in bringing down the Red Wizards who be establishing themselves across the Moonsea. Know that any place the Thayans have gained foothold has bode ill for their neighbours, so this be an issue we Harpers feel is of dire consequence for the future of Phlan, and the Moonsea at large.

Any aide ye feel Phlan or the Blackfist may offer the Harpers, and Emerald Enclave in this matter be most appreciated. Know that this not be any threat on our part. Should ye abstain from assistance, know it that We Who Harp will still aide Phlan in her times of need, and that we still operate in her best interests. We will not turn our back on those who are in need.

Sincerely,

Malkyn Fenris

Archmage of Phlan, and High Harper of the Moonsea.
