BACKGROUND

Jekk is a shield dwarf hailing from Hillsfar. Like his father, he was a gladiator in Hillsfar's arena.

Sir Isteval and the rest of the Company of the Sunlit Sea freed Jekk from the arena and Jekk fought beside them until the group disbanded. With time to contemplate his life, Jekk looked into how his father had come to be a gladiator.

Jekk discovered that Ironfist was not just a moniker but also the name of a dwarf clan, and he is now searching for its origin.
