

## Make a mobile - colour the pictures

Try and make this train mobile. You will need: a pair of scissors, some cotton, and two straws. Get an adult to help you cut out the shapes, very carefully put a hole in the top centre of each shape. Use two straws to make a cross and tie together with the cotton leaving a length of cotton for hanging. At the ends of each straw tie a piece of cotton and attach it to one of the shapes, repeat for each shape (as the diagram). Finally attach the large circle shape to the centre cross of the straws with a long length of cotton. You now have made your mobile - you can stick coloured or silver foil paper on the back of each shape.

### Warning

Be very careful when cutting out the shapes  
- ask an adult to help
