VICTORY CONDITIONS: The Germans win at Game End by Controlling 10 of the 12 stone buildings (one of which must be building 9D3) and/or if there are no unbroken Russian MMCs on/Adjacent to the road which runs 34P5-42P3.

OUTSIDE OF BICSKE, HUNGARY 7 JANUARY 1945:

On January 1st, the Germans launched the first of 3 attempts (Konrad I, II, and III) to relieve the surrounded Hungarian and German forces in Budapest. Led by the 3rd and 5th SS Panzer Divisions, the attack ground forward through the hills West of Budapest. By January 4th, lead elements of the “Wiking” Division were outside of the key road junction town of Bicske. Units from the “Norge” Panzer Grenadier Battalion found themselves cut off in Hegyks Castle, on a hill overlooking Bicske. For three days they fought off increasingly powerful Soviet attacks while waiting for relief.

Rows A-P (inclusive) on boards 34, 39 & 42 are in play. Hexrows R-GG (inclusive) are in play on board 9.
