

STATE FARM 41

Near OSIPOVITCHI, RUSSIA, 9 July 1941: German Army group center has conquered a bridge across the Berezina river, of Napoleon's fame. Pressing the attack deeper into Russian territory along the Moscow highway, the leading Panzer formations have left numbers of Russian units behind and isolated. These included fully defended strongpoints with tank support available. One such group operating from the Osipovitchi area has caused heavy German administrative losses along the Minsk-Bobruysk highway. KampfGruppe Heilman is assigned the mission of destroying the Russian combat troops in, and around state farm 41.
