- The Germans receive one module of 81 mm Bn MTR OBA with one Pre-Registered hex (Barrage is NA) north of the hA3- O3 road. However, only HE and SMOKE concentrations are possible.

AFTERMATH: The 2nd Platoon tried to work its way up to the first hedgerow in the fields, but was unable to advance because of automatic weapons and mortar fire. The German mortars were registered on the hedgerow lines and blanketed all routes of advance. The 3rd Platoon was sent in to give support; a few men succeeded in working their way near enough to the enemy position to throw hand grenades, but got no farther. The defenses of Kraut Corner finally gave way when the 1st Platoon got around the east side of the strongpoint. Scouts streaked along the flanking hedges, supported by BAR's, MG's light mortars, and the two machine guns on a tank. When eight or ten riflemen penetrated the German defense, resistance crumbled, and 15 prisoners were taken. Three Fallschirmjäger who still held out were eliminated by a tank dozer which buried them under five feet of dirt. It took Company E more than an hour to clear Kraut Corner and to resume its advance on Cloville.
