

Traieto de Righteous

MISSION
BRIEFING

CLASSIFIED

Mission Overview

The government of Calstinopa has requested aid from the USA to hit and eliminate the Trajeto de Righteous' primary base of operations in Calstinopa. Satellite reconnaissance, debriefings by locals and interrogations of captured Trajeto operatives has given a rough layout of the base, as well as an approximation of troop strength and standard weaponry.

The team entered the region by submarine, then transferred via a local fishing trawler to Arvores Curtas military base, where they were debriefed and began planning the operation. The Ranger forces are to be inserted via helicopter 2 miles from the main base, have them move into engagement with the enemy base with the three Blackhawk helicopters providing gunship support, and then withdraw via helicopter extraction.

En route to the target LZ, news came through that a team of terrorists from Trajeto de Righteous had struck at a Peace Corps work group, killing eight and taking six hostages. Intelligence believes that the hostages have been taken back to Trajeto de Righteous' main base of operations, and a ransom demand has been broadcast already.

"All American diplomatic staff are to leave the country within 12 hours, or the hostages begin dying."

Demands such as that are unacceptable to the American State Department, which is tasked with carrying out the policy of no negotiation with terrorists.

Mission orders have been modified to include the rescue of six hostages. Their deaths are unacceptable, and standard rules of engagement are in force. The Ranger team has been tasked with killing as many of Trajeto de Righteous' personnel as possible and completing destruction of the base, as well as rescuing the hostages.

Rules of Engagement

ALL ENEMY MILITARY PERSONNEL AND VEHICLES TRANSPORTING THE ENEMY OR THEIR SUPPLIES MAY BE ENGAGED SUBJECT TO THE FOLLOWING RESTRICTIONS:

A. Do not engage anyone who has surrendered, is out of battle due to sickness or wounds, is shipwrecked, or is an aircrew member descending by parachute from a disabled aircraft.

B. Avoid harming civilians unless necessary to save US lives. Do not fire into civilian populated areas or buildings which are not defended or being used for military purposes.

C. Hospitals, churches, shrines, schools, museums, national monuments, and any other historical or cultural sites will not be engaged except in self-defense.

D. Hospitals will be given special protection. Do not engage hospitals unless the enemy uses the hospital to commit acts harmful to US forces, and then only after giving a warning and allowing a reasonable time to expire before engaging, if the tactical situation permits.

E. Booby traps may be used to protect friendly positions or to impede the progress of enemy forces. They may not be used on civilian personal property. They will be recovered or destroyed when the military necessity for their use no longer exists.

F. Looting and the taking of war trophies are prohibited.

G. Avoid harming civilian property unless necessary to save US lives. Do not attack traditional civilian objects, such as houses, unless they are being used by the enemy for military purposes and neutralization assists in mission accomplishment.

H. Treat all civilians and their property with respect and dignity. Before using privately owned property, check to see if publicly owned property can substitute. No requisitioning of civilian property, including vehicles, without permission of a company level commander and without giving a receipt. If an ordering officer can contract the property, then do not requisition it.

I. Treat all prisoners humanely and with respect and dignity.

J. ROE Annex to the OPLAN provides more detail. Conflicts between these orders and the OPLAN should be resolved in favor of the OPLAN.
